EUROCAMARA
REPÚBLICA DOMINICANA

Introduction

In November 2016 the Eurocámara de Comercio de la República Dominicana will have its first Trade Mission to Europe, visiting 3 main European Capitals. The Missions' objective is to stimulate trade, investments and business collaboration between the Dominican Republic and Europe.

In every city we will have a 1-day event. During the morning we will focus on Business Environments and Opportunities. We will show European business owners and investors the specific growth and investment opportunities the Dominican Republic has to offer, the incentives the DR provides and specifics about doing business in the DR. We will also show potential new markets in the EU to the Dominican Companies attending, and share the specifics about doing business with the EU. Obviously we will share some great success stories.

While bringing the regional EU and DR business community together, we will actively explore and facilitate potential trade, investment, joint venture and knowledge transfer opportunities between the parties. For this we will organize industry and company specific break-out and match-making sessions during the afternoon.
