### **Power Generation, Electricity Market & Renewable Energy Practice**

Since its incorporation in 1934, Goodrich has become one of the most prestigious full service law firms in Mexico. By means of a cross practice among different service areas, our more than 250 professionals achieve an innovative approach towards the rendering of legal services. Ranked Tier 1 Law firm in the Energy sector (Chambers & Partners), our team provides legal services for the

## **New Interconnection Rules**

Both the reform of the Mexican electric power sector and the new Mexican Wholesale Electricity Market are in process of creation. We are expecting the pending regulation to be published within the next three to four months.

Today, the National Centre of Energy Control ("CENACE") published the new "Specifications of the infrastructure required for the interconnection of power plants and connection of load centers" in the Official Gazette. The document provides for the

structuring and financing of electric power generation (conventional and renewable energy), transmission & distribution projects, as well as the trading of electric power in the new market. Goodrich is one of the few full service law firms in Mexico with a practice group specialized in the electric power sector, which allows us to provide our clients with specific knowledge and expertise.

procedure and requirements for the interconnection of power plants and connection of load centers to the transmission and distribution network. Power plants with a capacity of 0.5 MW or greater and load centers with a demand greater than 10 MW are required to apply before CENACE for interconnection/connection and their installations have to comply with the technical specifications of the \_\_\_\_\_ document.

Should you require any clarification or assistance in connection to this information, please do not hesitate to \_\_\_\_\_ contact \_\_\_\_\_ us.

Kind regards
